

## COUNTRUST People counting system

COUNTRUST has been developed for high accuracy passenger counting at the doorways of buses and trains; it keeps the record of the number of people both entering or leaving a vehicle, as well as vehicle occupancy.

## COUNTRUST main characteristics

- 99% counting accuracy
- Detects both moving and stationary people
- Robust under any lighting and weather condition
- People tracking in every direction
- Non-intrusive system
- Easy to install and setup
- Portable
- Remote visualization of data
- GPRS and GPS integrated
- Zero consumption when vehicle is switched off

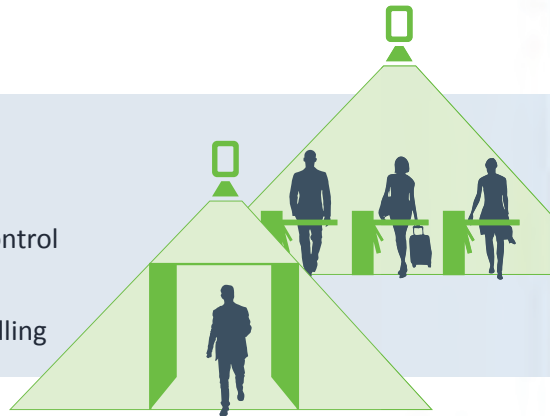

11:22:13

Passengers leaving : 16  
Passengers boarding : 0

### Security

- Restricted areas access control
- Tailgating detection and fraud control
- Building occupancy in real time
- Crowd detection and queue handling

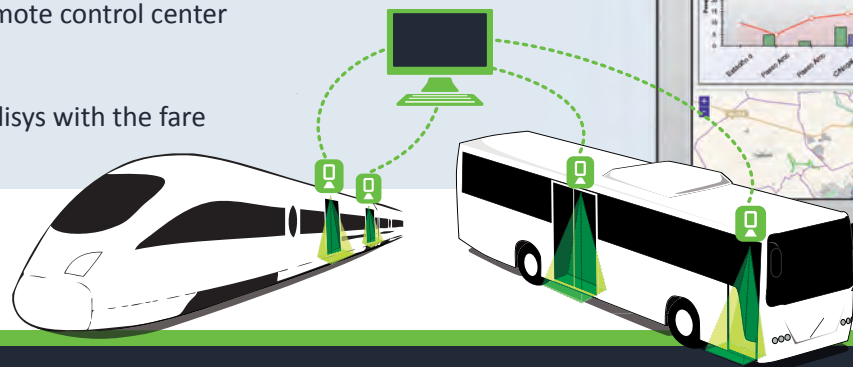

### Infrastructure

- Pedestrian crossing control
- Sidewalk counts for infrastructure design
- Pedestrian speed and waiting times
- Enhanced pedestrian safety
- Better traffic management

### Transport

- Vehicle occupancy and position in real time
- Data management from a remote control center
- Better network management
- Allows a complementary analysis with the fare collection system

CIDRO is a company focused on the design of advanced, technology based systems, mainly oriented to road safety and mobility.
