

## COUNTRUST People counting system

COUNTRUST has been developed for high accuracy passenger counting at the doorways of buses and trains; it keeps the record of the number of people both entering or leaving a vehicle, as well as vehicle occupancy.

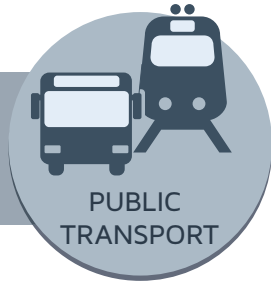

## COUNTRUST main characteristics

- 99% counting accuracy
- Detects both moving and stationary people
- Robust under any lighting and weather condition
- People tracking in every direction
- Non-intrusive system
- Easy to install and setup
- Portable
- Remote visualization of data
- GPRS and GPS integrated
- Zero consumption when vehicle is switched off

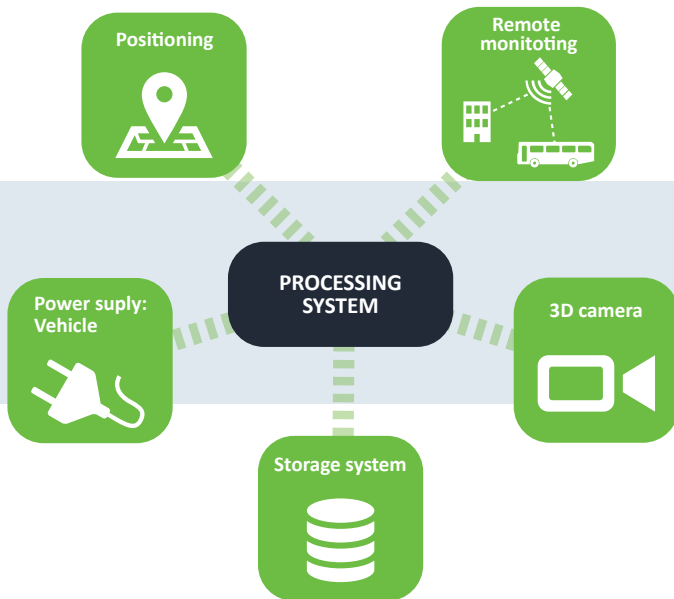

11:22:13

Passengers leaving : 16  
Passengers boarding : 0

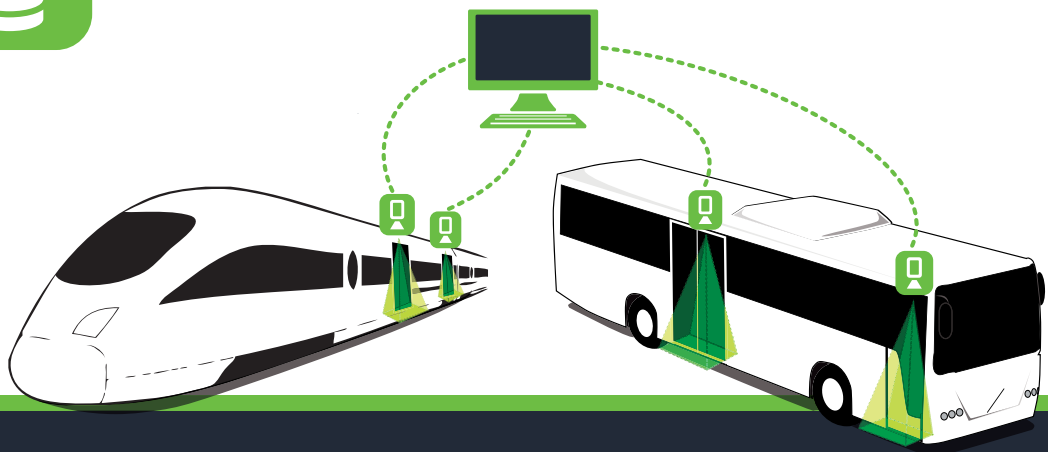

### Remote Control Software

- Vehicle occupancy and position in real time
- Detailed information of each line, stop and vehicle for any chosen period of time
- Data integrated into GIS map for an easier visualization
- Graphics and charts to make useful comparisons
- Videos can be remotely visualized

### Network Management

- Key tool for resource planning
- Allows comparisons with the fare collection system
- Improved service for your clients

CIDRO is a company focused on the design of advanced, technology based systems, mainly oriented to road safety and mobility.
